# **ARU® Fräsmaterial - Vielfalt durch Erfahrung**

## **ARU® Milling materials - variety based on experience**

Dank unserer jahrelangen Erfahrung in der Entwicklung von Fräsmaterialien können wir Ihnen die umfangreichste Auswahl präsentieren, mit vielen Farben, Shorehärten, Kombinationen und Umrissformen, abgestimmt auf alle gängigen Maschinentypen.

ARU Fräsmaterialien erfüllen höchste Ansprüche in Bezug auf Qualität und Bearbeitungsmöglichkeit und bieten einen ausgezeichneten Tragekomfort. Die Materialien sind unbedenklich und können zur Verarbeitung von Medizinprodukten verwendet werden.

Unser großes Warenlager und unsere hauseigene Stanzerei garantieren ständige Lieferbereitschaft innerhalb von 24 Stunden.

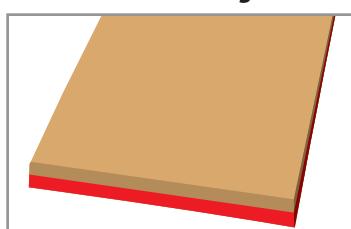

*Thanks to our many years of experience in the development of milling materials, we can offer a very wide range of colours, Shore hardnesses, combinations and contours for all the latest milling machines.*

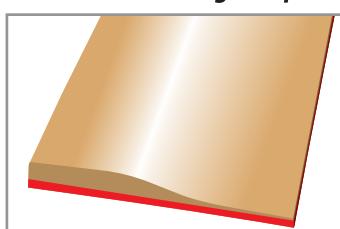

*ARU milling materials meet the highest demands of quality and processing and are very comfortable to wear. All milling materials are harmless and can be used for the processing of medical devices in orthopaedic. Our great warehouse and our in-house stamping shop ensure readiness of delivery within 24 hours.*

# ARU® Fräsmaterial - selber gestalten

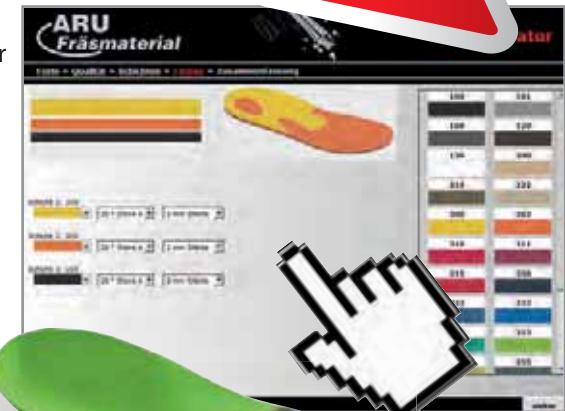

## ARU® Milling materials - create your own design

**1.** Als besonderen Service bieten wir Ihnen die Möglichkeit, Fräsmaterial individuell zu gestalten. Mit unserem **Fräsmaterial-Konfigurator** unter [www.schein.de](http://www.schein.de) haben Sie die Wahl, Materialkombinationen, Farben, Stärken, Shorehärten und Form des Rohlings selber zu bestimmen. Von der fertigen Zusammenstellung produzieren wir vorab ein Muster, bevor das Material in größerer Menge angefertigt wird, das exklusiv nur für Sie zur Verfügung steht.

*A special service is the configuration of the individual milling blank. In this context, visit the milling materials configurator ([www.schein.de](http://www.schein.de)) to see the range of different possibilities. You can individually determine the material combinations, colours, thicknesses, Shore hardnesses and the shape of the blanks. Once the composition is finished we produce a sample, before the material is then produced in higher quantities.*

Beispiele von Fräsmaterial-Kompositionen,  
die Kunden bereits konfiguriert haben.

Examples of compositions  
configured by our costumers.

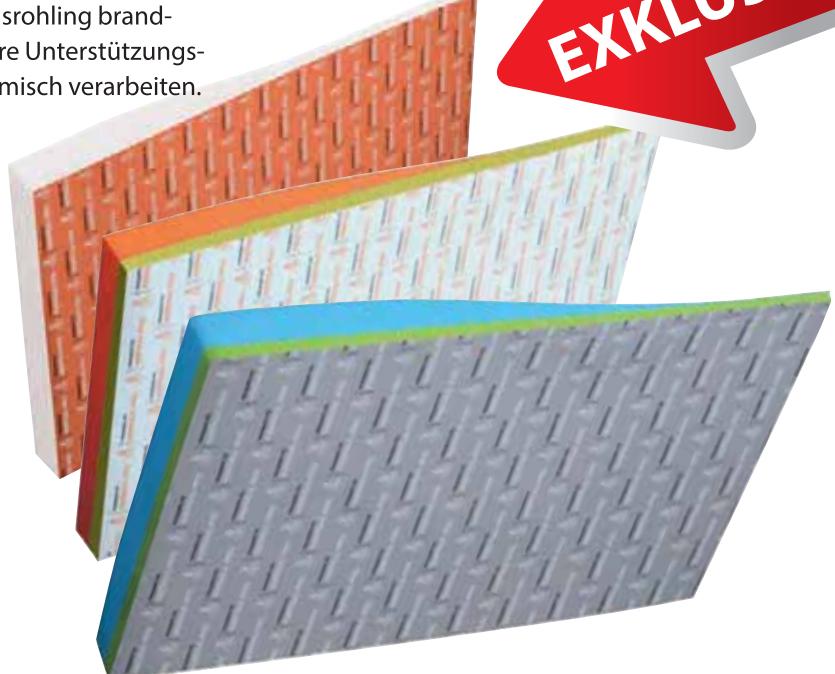

**2.** Mit einem **Streudruck Ihres Logos** auf der Unterseite der Fräsmaterials verleihen Sie den Fräseinlagen Ihre persönliche Note, schaffen Vertrauen und eine intensivere Kundenbindung. Der Druck erfolgt auf dem Folienverbundstoff ARU® skin. Dieser schützt den Fräsröhring brandschichtig und bietet wahlweise eine flexible oder festere Unterstützungs- schicht. ARU® skin lässt sich sehr gut beschleifen und thermisch verarbeiten. Die Fräsmaterialien dazu finden Sie von Seite **77 bis 81**.

*Your company logo as a continuous form of print across the backsite of the milling material. We design it for you. Send us your logo and tell us how you like the background colour. Milling material on pages 77 - 81.*

Kundenbeispiel

Example of a customer design

! Wir helfen Ihnen bei der Gestaltung. Sie schicken uns Ihr druckfähiges Logo als Datei und nennen uns die gewünschte Hintergrundfarbe. Daraus gestalten wir den Endlosdruck.

EXKLUSIV

# **ARU® Fräsmaterial - beste Qualität, hoher Tragekomfort**

## **ARU® Milling materials - best quality, high wearing comfort**

### **ARU®Cut Classic**

8-40

ARU®cut "Classic" ist ein qualitativ hervorragendes Fräsmaterial, das als Ein- und Mehrschichtmaterial in vielen Farben, Shorehärten und Kombinationen lagermäßig geführt wird. Durch diese Produktbreite findet es in vielen Bereichen der Orthopädie seinen Einsatz.

*ARU®cut „Classic“ is a high quality milling material, available as one-layer and multi-layer with a very wide range of colours, Shore hardnesses and combinations. Therefore it will be used in many areas of orthopaedic treatments.*

### **ARU®Cut Reboflex**

### **ARU®Cut Reboflex Comfort Plus**

41-44

ARU®cut "Classic mit Reboflex" ist die Kombination unseres bewährten „Classic“-Programms mit dem hervorragenden Polstermaterial „Reboflex“. Reboflex ist ein sehr hoch flexibles, hoch rückstellfähiges und elastisches EVA mit Gel-Charakter, welches seinen Einsatz im Fersen- und Polsterbereich, aber auch über die gesamte Einlage findet.

*ARU®cut „Classic with Reboflex“ is a combination of our „classic“ material and „Reboflex“ which is high flexible and has a very high resilience. This elastic EVA has the characteristic of gel. It is used in the area of heel, bedding and of course the complete insole.*

### **ARU®Cut Skyflex**

45-46

ARU®cut "Skyflex" ist ein sehr hochwertiges, extrem leichtes Fräsmaterial im niedrigen Shorehärtebereich mit einer äußerst hohen Rückstellkraft. Dank dieser Eigenschaften findet es in sehr vielen Bereichen der Einlagenversorgung seinen Einsatz und wird auch höchsten Ansprüchen gerecht.

*ARU®cut „Skyflex“ is a very high quality material, extremely lightweight in low Shore hardness area with very high resilience.*

### **ARU®Cut Absorb**

NEU  
NEW

47

ARU®cut "Absorb" ist ein sehr hoch stoßabsorbierendes Fräsmaterial im niedrigen Shorehärtebereich mit außergewöhnlich guter Rückstellfähigkeit.

*ARU®cut „Absorb“ is a very high shock absorbing material, in low Shore hardness area with very high resilience.*

### **ARU®Cut ARU®fant**

48-51

ARU®fant ist eine Kork/EVA – Verbindung mit hervorragenden Fräseigenschaften. ARU®fant ist in vier verschiedenen Shorehärten, von ganz weich bis ganz fest lieferbar. Dadurch können alle Bereiche der Orthopädie abgedeckt werden.

*ARU®fant is a combination of cork and EVA with excellent milling properties. ARU®fant is available in four shore hardnesses, from very soft up to very rigid. Therefore it will be used in all areas of orthopaedic treatments.*

### **ARU®Cut DuoDirect®**

### **ARU®Cut TricoDirect®**

52-58

ARU®cut "DuoDirect®" und "TricoDirect®" ist ein aus sehr hochwertigem EVA produziertes Fräsmaterial mit vulkanisierten Schichten. Der besondere Vorteil: die Übergänge der einzelnen Shorehärten sind fließend, haben keine festen Kanten und somit auch keine Druckstellen. Dies erhöht den Tragekomfort der Einlage enorm und schont darüber hinaus durch die fehlende Klebeschicht den Fräskopf.

*ARU®cut "DuoDirect®" and "TricoDirect®" is a very high quality material made of EVA with vulcanized layers. Special advantage: smooth junctions between the different layers, no firm edges and therefore no pressure points on the foot. That offers a higher wearing comfort and protects the milling head.*

## ARU®Cut Antistat

58-68

ARU®cut "Antistat" ist ein qualitativ sehr hochwertiges Fräsmaterial, hat eine sehr hohe Rückstellkraft und ist sehr schleifstaubarm. Dieses Ein- oder Mehrschichtmaterial wird auch den höchsten Ansprüchen gerecht. Durch den großen Shorehärteumfang und der Vielzahl an Kombinationen findet dieses Material in allen Bereichen der Orthopädie seinen Einsatz.

*ARU®cut "Antistat" is a very high quality milling material with high resilience and it will produce only a low level of swarf. This one-layer and multi-layer material meets highest requirements. According to the wide range of Shore hardenesses and combinations it will be used in many areas of orthopaedic treatments.*

## ARU®Cut TricoDirect® Antistat

68-69

ARU®cut TricoDirect® "Antistat" ist die Kombination aus dem direkt vulkanisierten ARU®cut „TricoDirect®“ und ARU®cut „Antistat“. Dieses Material ist sehr hochwertig, schleifstaubarm und sehr rückstellfähig. Mit der Vielzahl an Kombinationen in Stärke, Farbe und Shorehärte und den fließenden, klebstofffreien Schichtübergängen können alle Bereiche der Orthopädie-Schuhtechnik abgedeckt werden.

*ARU®cut TricoDirect® "Antistat" is a combination of vulcanized ARU®cut „TricoDirect®“ and ARU®cut „Antistat“. This high quality material has slight abrasive dust and a very high resilience. With a high variety of colours, Shore hardenesses and combinations it is used in many areas of orthopaedic treatments.*

## ARU®Cut Adaflex

69

ARU®cut "Adaflex" ist ein einschichtiges, sehr hochwertiges, schleifstaubarmes und rückstellfähiges Fräsmaterial aus EVA, welches in vielen Bereichen der Orthopädie seinen Einsatz findet und auch anspruchsvollen Versorgungen gerecht wird.

*ARU®cut "Adaflex" is a high quality one-layer milling material with a high resilience and slight abrasive dust. It is used in many areas of orthopaedic and high demanding treatments.*

## ARU®Cut Gumflex

NEU  
NEW

70

ARU®cut "Gumflex" ist ein einschichtiges, sehr hochwertiges, schleifstaubarmes und rückstellfähiges Fräsmaterial aus EVA, welches in vielen Bereichen der Orthopädie seinen Einsatz findet und auch anspruchsvollen Versorgungen gerecht wird.

*ARU®cut "Gumflex" is a high quality one-layer milling material with a high resilience and slight abrasive dust. It is used in many areas of orthopaedic and high demanding treatments.*

## ARU®Cut Antipulver

71

ARU®cut "Antipulver" ist in der Qualität des EVA's eines der besten Materialien, die wir lagermäßig führen. Das absolut schleifstaubarme Material hat Dank seiner hohen Dichte und der geschlossen zelligen Struktur eine sehr hohe Rückstellkraft und ist äußerst ermüdungsfrei.

*ARU®cut "Antipulver" is one of the best milling materials we have on stock. It has slight abrasive dust and because of the high density and closed cell structure a very high resilience.*

## ARU®Cut Premium

## ARU®Cut Premium Sport

72-73

ARU®cut "Premium" ist das hochwertigste Fräsmaterial für allerhöchste Ansprüche. Dank seiner hohen Dichte besitzt dieses Material eine extrem hohe Rückstellkraft, ist ermüdungsarm, hat eine Top-Standfestigkeit und ist beim Fräsen und Beschleifen absolut schleifstaubarm.

*ARU®cut "Premium" has the best quality of our milling materials. Because of the high density, the material has a very high resilience and a high level of stability. It also has slight abrasive dust.*

## ARU®Cut ESD

74

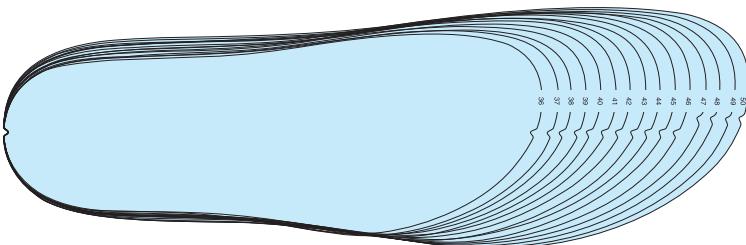

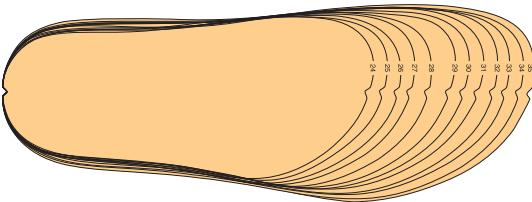

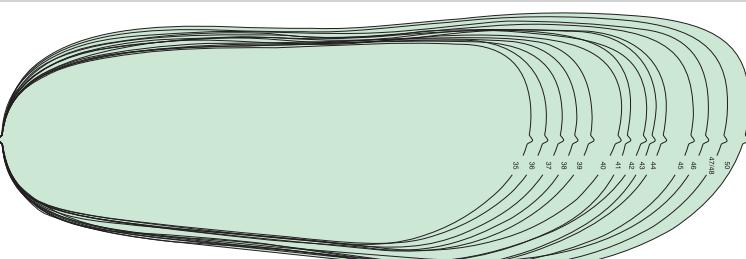

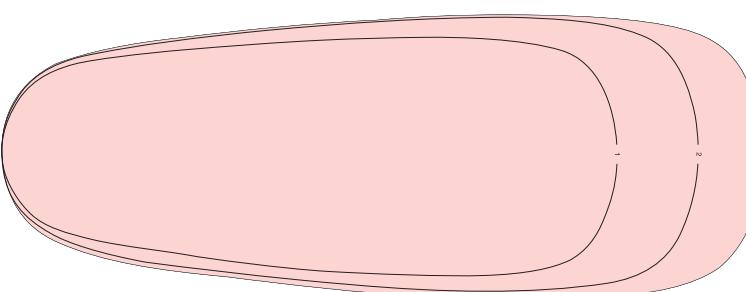

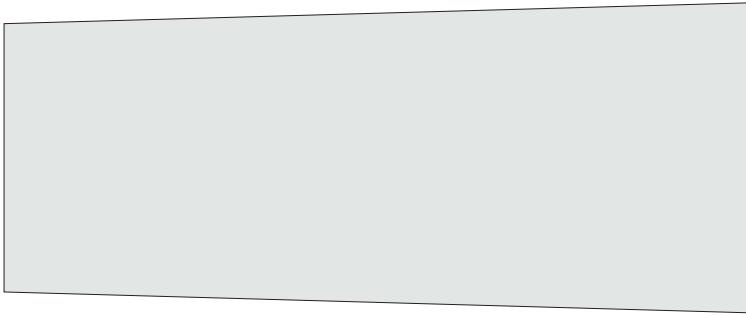

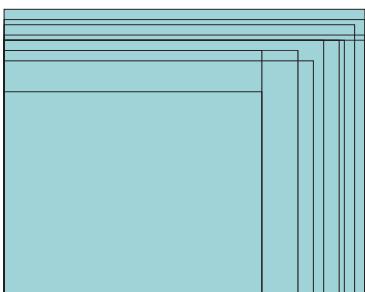

ARU®cut "ESD" Fräsmaterial eignet sich besonders für die Herstellung von Einlagen, die in Sicherheitsschuhen getragen werden.

*ARU®cut "ESD" milling material is especially for producing insoles for protective shoes.*

# ARU® Fräskeile

- so individuell wie Ihre Wünsche

JETZT SELBST  
GESTALTEN!

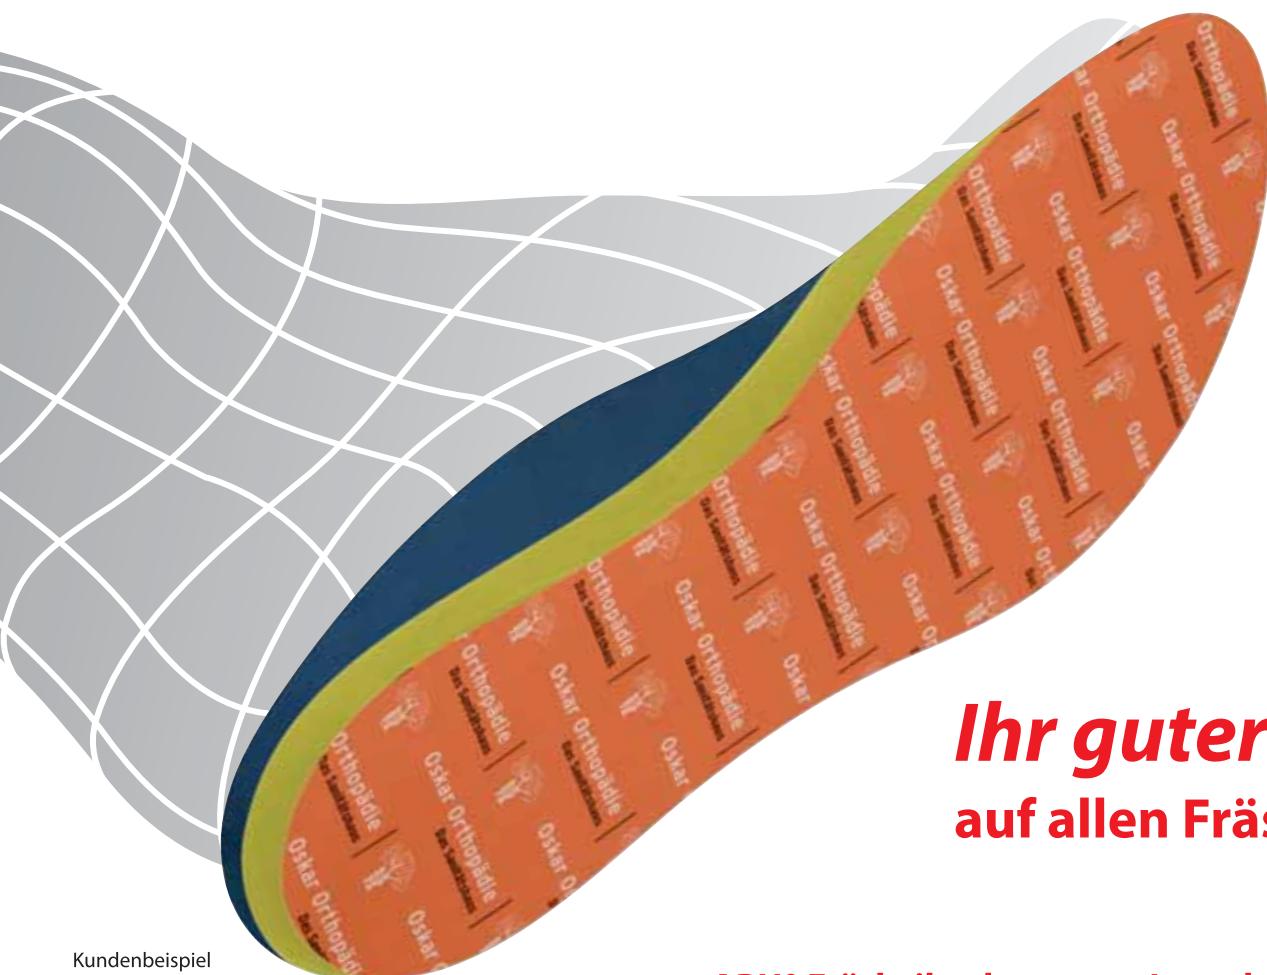

Verleihen Sie Fräseinlagen Ihre persönliche Note  
und zeigen Sie damit Ihre Kompetenz.

Dazu bieten wir Ihnen als besonderen Service,  
**individuell bedruckte Fräskilstreifen** zu bestellen.

Der Druck erfolgt auf dem Folienverbundstoff ARU®skin. Dieser schützt den Fräsröhrling brandseitig und bietet wahlweise eine flexible oder festere Unterstützungsschicht. ARU®skin lässt sich sehr gut schleifen und thermisch verarbeiten.

**Mit dieser Optik schaffen Sie zusätzliches Vertrauen  
in Ihre Produkte und eine intensivere Kundenbindung.**

NEU  
NEW

Kundenbeispiel

**Ihr guter Name  
auf allen Fräseinlagen**

## ARU® Fräskeile ohne teure Lagerhaltung!

Damit Sie flexibel auf Versorgungswünsche reagieren können, bieten wir Ihnen unsere individualisierbaren Keilstreifen in kleiner Menge (Mindestabnahme 4 Keilstreifen) an.

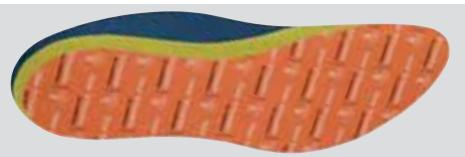

Diese ARU® Fräsmaterialien, **ab Seite 76**, gibt es in fünf bewährten Qualitäten, jede für sich in unterschiedlichen Shorehärten.

Wir helfen Ihnen bei der Gestaltung. Sie schicken uns Ihr druckfähiges Logo als Datei und nennen uns die gewünschte Hintergrundfarbe. Daraus gestalten wir den Endlosdruck.
